

MIT 5300: Operating System Security

Final exam details and questions

Anonymous Communication With Me

- Go to www.menti.com
- See board for today's anonymous channel number
- If in your comment you are referring to the lecture, please let me know the slide number in question (if relevant).

The screenshot shows a Menti poll interface. At the top is the Menti logo. Below it is a large image of a hand holding a 'Hello!' sticker with a smiley face. Under the image, the text reads: 'PLEASE ENTER YOUR QUESTION OR COMMENT HERE: Dr. Thorpe's Anonymous Communication Channel'. Below this is a text input field with a character count: 'Short answers are recommended. You have 250 characters left.' and a '250' character limit indicator. Below the input field is the text 'You can submit multiple answers'. At the bottom is an orange 'Submit' button.

Reminder: Research Project

It is due in 1 week! (April 13th @ 11:59pm). It must be submitted in the assignment dropbox for “Research Project Presentation” on Canvas.

Late submissions accepted for 3 days with this policy:

- ≤ 24 hours late: 10% deduction.
- ≤ 48 hours late: 20% deduction.
- ≤ 72 hours late: 30% deduction.
- > 72 hours late: not accepted.

Research Project: Chance for Questions

Paper discussion

Final exam important information (1/3)

Date: Thursday April 23rd

Time: 8:00-10:30am

Location: BIT 2080

What to bring: your student ID (or physical government ID) OR your digital ID (on your phone), pen, and a #2 pencil.

Final exam important information (2/3)

The test is closed-book. No electronic devices, calculators, or aids of any sort are allowed.

- Note: if you have a phone for your digital ID, it must be kept under your seat until you are asked to show your ID, then returned to under your seat.
- All other items must be left at the front or sides of exam room.

Final exam important information (3/3)

As soon as you enter the exam room, you must remain silent (i.e., as you get seated, while waiting, during exam, and while leaving).

You must wait for us to announce the exam has begun before you turn the first page.

Final exam format

Time: 150 minutes

There will be:

- Short-medium length freeform/written answer questions
- Multiple choice questions
- T/F questions

Assumptions

If you are unsure about how to interpret a question, you may make reasonable assumptions in order to proceed.

- You will then be graded based on the assumptions.
- For this to occur, you will need to write these assumptions on your exam submission.
- If assumptions are on the parts answered by scantron, please indicate which questions you made assumptions for on the first page of the exam booklet
 - The first page is the one where you write your name, and has the instructions for the exam.

INFR 3610: Operating System Security**Winter 2025 Mid-term Exam**

February 27, 2025

Instructions:

- This test is closed-book. No aids, calculators or electronic devices of any sort are allowed.
- There are a total of 65 points. Answer all questions.
- Time allowed: 70-minutes. Plan your time accordingly.
- For the true/false and multiple choice questions, use the provided SCANTRON sheet. Please make sure you use No. 2 pencil on your SCANTRON sheet. Also ensure you put your name and ID on it.
- For the short answer questions, if the space provided is insufficient, use separate answer booklets. If you find you need to use it, put your name and ID on it.
- When short answer is required, be brief and specific. Explanations may be phrases or points, no need for complete sentences. All answers, however, must be clear and unambiguous.
- For all questions, if you believe a question is ambiguous or confusing, state in writing what you believe is wrong, make any reasonable assumptions you think necessary, and proceed to answer the question. If the question is answered on the SCANTRON sheet, **make sure you write the number of the question on the first page** so I know to go back and read these assumptions.
- Good luck!!

I made assumptions for these questions:
9, 24, 41, 47

Topics

- Lecture material (Weeks 1-11)
- Assignments (1 and 2)
- Quizzes (Weeks 1-10): the quizzes have been made available again for you to study. If you can't access them, please let me know.
- Some high-level takeaways from the paper discussions, consider how it relates to the main topics (finer details not required).
- Let's talk about some study tips!

Q&A

Time for questions...

Final notes

- 1) Research project deadline is approaching (**April 13th**)
- 2) Our final exam will be held on **Thursday April 23rd!**
- 3) Assignment 2 grades will be released approx. April 13th.
 1. If you missed any marks, and it is not clear why, please first reach out to the TA. If you are not satisfied with the response, please reach out to me.
 2. If you have questions leading up to the exam, my office hours will be online Mondays 2-3pm, Thursdays 11-noon on Google Meet:
<https://meet.google.com/kyn-ookt-kxv>.

Thank you

- It's been a pleasure having you all in the class this term!
- I look forward to hearing about all the great things you do in the future.
- Feel free to connect with me on LinkedIn 😊
